

NOW OPEN!

NeighborHealth Center is a new faith-based community health center providing primary care for all ages and welcoming patients with or without insurance.

OUR MISSION:

Serving Christ by loving our neighbors through the practice of excellent, compassionate and accessible healthcare.

WHO WE ARE

- A ministry of quality healthcare for those in need
- A community of faith partners who are striving to meet the overwhelming need for quality healthcare for our most vulnerable neighbors

WHO WE SERVE

- Children and adults
- Expectant mothers and newborns
- Those with or without insurance, Medicaid and Medicare

OUR LOCATION

- 4201 Lake Boone Trail, in the Lake Boone Medical Center building
- First floor space with ample parking and nearby bus stops
- Located in west central Raleigh where one quarter of Wake County's uninsured residents reside

HEALTH SERVICES

- Adult health
- Urgent care
- Chronic disease management
- Children's Health
- Women/prenatal
- Spiritual care

"But God will never forget the needy; the hope of the afflicted will never perish."

Psalm 9:18

nh+ NeighborHealth FAQ

What distinguishes NeighborHealth from other safety-net healthcare providers?

- Located in an area of high need in west central Raleigh where no other safety-net clinic exists.
- Serves all ages, from infancy through adolescents to adulthood.
- Provides prenatal care and services to expectant mothers.
- Accepts Medicaid, Medicare, private insurance and welcomes the uninsured (via affordable sliding scale payments).

Why open a new health center?

- As Raleigh continues to grow, so does the number of men, women and children in need of primary care. Of Wake County's 95,000 uninsured residents, almost 29,000 live in west central Raleigh, where we are located.
- The need for increased access to healthcare has been well-documented; we are helping to meet that need.

How are you funded?

- We believe sustainability is best achieved through diverse income streams. NHC is funded by patient reimbursements, individual contributions, foundation grants, investor groups and church partners.

What does faith-based healthcare mean?

- While we are aligned with Christian faith principles, we're committed to serving patients of any faith, without discrimination.
- Our practitioners strive to live out the Gospel by meeting each person with the same grace, kindness and acceptance Jesus has shown us.

How you can help NeighborHealth Center:

- Help us spread the word!
- Refer patients.
- Help us connect with community groups and congregations.
- Provide financial support.
- Pray that our work and words bring glory to God. (Colossians 3:17)

Will you partner with us in loving our neighbors through primary medical care?

Find out how you can get involved. We'd love to hear from you!
